Affiliate Compensation Plan

Celle Ci's Affiliate Compensation Plan is not just about financial rewards. It empowers individuals to reach their full potential while helping others.

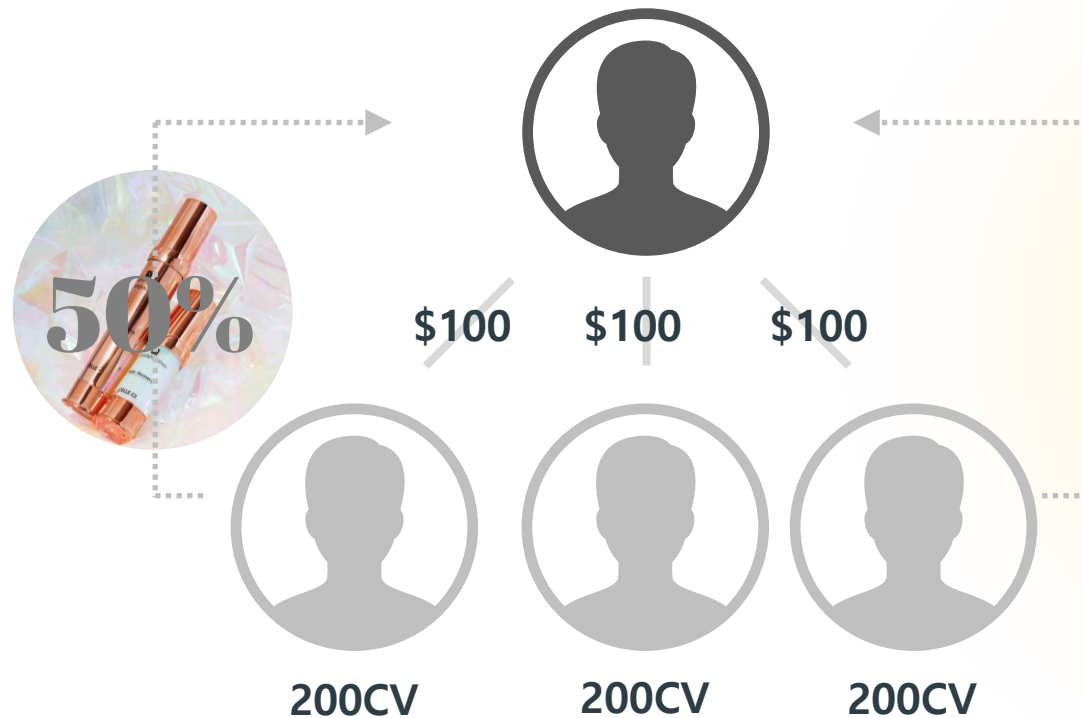

Instead of spending on expensive advertising, Celle Ci rewards partners who are already passionate about our brand and products.

We believe this bonus structure is essential because it aligns with our mission to foster long-term partnerships based on trust and mutual growth. By encouraging collaboration between partners, we create an environment where success is shared, and every partner has the opportunity to thrive.

1. Affiliate Bonus Bonus

When someone I referred makes a purchase or repurchase of a product ~

Membership price \$350 (200CV)

2. Manager Bonus

When an affiliate under a manager purchases a product, the manager earns \$50. If the manager sells the product directly, they earn \$150. To qualify as a manager, they must purchase the product and sell at least five units.

3. General Manager Bonus

When a member referred by a manager under a General Manager (GM) purchases a product, the GM receives \$20. If the product is purchased by a member referred by an affiliate, the GM earns \$70.

For products sold directly by the GM, the commission is \$170. Additionally, a bonus of 5% of the Commissionable Volume (CV) is generated from the independent sales of other GMs under the GM's team. To qualify as a GM, one must have at least 10 managers or sell more than 50 products.
